**“work hard. have fun.
make history”** - Jeff Bezos

Born and raised in San Diego, it's no mystery where I get my 'laid-back get the job done' attitude. I am an avid supporter of Taco Tuesdays and am one of the few people my age who regularly watches The Golden Girls. In my free time I enjoy working on web design and branding projects.

I pride myself on being thorough and efficient. When presented with a challenge, I work diligently until a solution is found. My organized nature allows me to maintain a calm demeanor while balancing multiple projects.
